

C-810

KEY FEATURES:

- Zero Clearance hanger (**C-810**)
- Allows for a minimal clearance between the underside of the track to the top of the door of 3/16" and also reduces light and sound entry.
- For Single, Bi-parting, By-Passing, Pocket or Wall Mounted doors.
- Four Precision Ground Ball Bearing, Nylon Tire Wheels.
- Reduces costs on materials and time when hiding the track and hanger in a bulk head.
- Use with Extruded Aluminum **C-104** Track, 6063T5 Alloy
- Load Capacity **300lbs. (two hangers)**
