

## CROWDER SECURITY

KNC has always aimed to make the highest quality sliding door track and hardware but also tackles new challenges and custom applications. This is where our one of a kind and a first in Canada, high security door system comes in. The Crowder Security system provides the standard smooth and quiet sliding door operation with the addition of security. This system is ideal for hospitals & high security facilities which will prevent users from tampering with the assembly or operation of the door.
